

Litigation

Heading into the courtroom can be disruptive, costly and could have real consequences for your company's ongoing operations and your ability to attract and retain talent. That is why you need a law firm that listens to you, understands your business and the challenges you are facing and works to get the best outcome for you. When litigation is necessary, our seasoned trial attorneys provide strong, well-reasoned and thorough representation. We obtained defense verdicts in the last three jury trials the firm litigated in 2023.

At MWH, we pride ourselves on our personal approach to each client matter. We take the time to understand what you want to accomplish, treating each case as if it were our own. While other firms may allow cases to stagnate, we use our case checklist system to ensure we are:

- **Communicating** clearly and frequently to keep you informed of the case progression
- **Pushing** your litigation matters forward to resolution
- **Paying attention** to your guidelines for the matter
- **Ensuring** we are responsible with your money

That is the approach guiding our Litigation Group, including Partner Vincent Vigil, who notes, *"I analyze all details related to a matter and plan a strategy to achieve the goal of ensuring an optimal result for each client."* Everyone in our Litigation Group continually looks for ways to improve our processes and procedures. We learn from and improve with every case we handle, and share that knowledge among the group during our group's roundtable discussions.

As a result, our clients rate their experience with MWH extremely highly. They appreciate the approach and diversity of both team makeup and experience we bring to their legal matters.
