

# Commercial Trucking & Transportation

**MWH Law Group represents commercial motor carriers, fleet operators, transportation service providers, freight brokers, and insurers in complex transportation and tractor-trailer litigation throughout Wisconsin, Iowa, and Illinois.**

Our attorneys provide rapid-response accident investigations and catastrophic loss response for the transportation industry. We have experience working with independent adjusters to coordinate accident scene investigations and provide motor carriers and their insurers with the information they need to evaluate a rapidly evolving situation.

We defend high-exposure transportation matters involving commercial vehicle accidents, serious bodily injury claims, cargo liability, and insurance-related matters. From initial response through final resolution, we provide practical, responsive counsel focused on protecting our clients' interests and minimizing risk.

## Transportation Industry Experience

Morgan Schultz leads MWH's Commercial Trucking and Transportation Litigation practice, bringing transportation litigation, trial, and in-house operational experience from one of the nation's largest transportation companies, where she managed trucking liability claims nationwide.

She has represented the interests of motor carriers, fleets, drivers, and transportation companies in catastrophic injury and complex commercial vehicle litigation across the country. She also advises executive, safety, risk management, and HR

## 24-Hour Rapid Response

MWH Law Group maintains a 24-hour rapid response team prepared to immediately respond to commercial vehicle and tractor-trailer accidents throughout Wisconsin, Iowa, and Illinois.

Our attorneys coordinate:

- Rapid-response accident investigation
- Evidence preservation and witness interviews
- Regulatory and insurer coordination
- Early liability and exposure assessment
- Expert retention and defense strategy

Our team works quickly to evaluate whether a matter requires early resolution strategy or aggressive litigation defense and trial preparation.

teams regarding transportation operations, insurance issues, regulatory compliance, post-incident response, and operational risk management.

MWH attorneys regularly collaborate with accident reconstruction experts, human factors specialists, biomechanical engineers, medical experts, and transportation industry consultants to evaluate liability, causation, damages, and defense strategy in complex transportation litigation.
