Loyola University Law School, J.D., 1983

University of Colorado School of Engineering,
B.S., Engineering

ADMISSIONS

Admitted to practice in all state and federal
courts in Illinois

License Date: 11/9/1983

“I analyze all details related to a matter and plan a strategy to achieve my goal of ensuring an optimal result for a client.”

Clients trust Vincent’s solid risk analysis and comprehensive case evaluations, backed by over 36 years of experience as an accomplished trial attorney. His clients include insurance companies, third-party administrators, and businesses, including Fortune 500® corporations.

He skillfully handles diverse cases including:

- Wrongful death
- Product liability
- Construction litigation
- Automobile and trucking accidents
- Premises liability
- Defamation
- Breach of contract
- Fraud and misrepresentation claims
- Real estate and commercial litigation

Vincent’s philosophy centers around exceeding client needs and expectations, which he accomplishes through regular communication and a commitment to delivering quality case assessments. His clients rely on him for both alternative dispute resolution, where he excels in binding arbitrations, court-sponsored settlement conferences, and private mediations, and, when necessary, to successfully defend cases from initial investigation and motion practice to deposition of witnesses and trial to verdict.

In one notable case, Vincent disproved a traumatic brain injury (TBI) claim, which can be particularly challenging due to the difficulty in objectively measuring and disproving the existence of a TBI. He conducted a thorough and concise cross-examination successfully resolving the matter and demonstrating his continued dedication to challenging complex cases.

VINCENT J. VIGIL

(continued)

Vincent is also an accomplished architect with extensive experience in construction litigation, using his architectural engineering degree effectively in his legal practice. This experience has significantly contributed to his ability to handle complex construction litigation cases for insurance companies and corporations. His ability to balance thorough risk analysis and aggressive defense has consistently delivered favorable outcomes for his clients.
